Data Source	FAO Africover project.
Processing and Elaboration	This map is presented as published by FAO Africover project.
Citation	FAO Africover (2003): Landform map of Somalia at scale of 1:300,000.
Accessibility	Copies of these data can be obtained from SWALIM and FAO dynamic atlas (May 2005). Data will be provided on CD or DVD.
Remarks	Produced from visual interpretation of digitally enhanced LANDSAT TM images (Bands 4,3,2). LANDSAT images from 1995 to 1998. The landform classes have been developed using the ITC (International Institute for Geo-Information Science and Earth Observation) and SOTER (Soil and Terrain Database) methods.

Disclaimer: This map is an approximation and may contain omissions.
