ACKNOWLEDGMENTS

The authors wish to acknowledge the considerable support given by the Project Task Force during the preparation of this report. Special thanks go to Dr. Hubert George for his overall contribution.

Many thanks to Abdullahi Hassan Magan and Mohamed Warsanie, the land use field surveyors who worked tirelessly collecting field data, and to our Somali drivers. All the Somali organisations contacted for information are also thanked, including the Somalia Mine Action Centre, the Ministry of Agriculture and the Cadastral Survey.

The contributions and support of all SWALIM technical, administrative and management staff are appreciated.

We also would like to thank the Food Security Analysis Unit (FSAU) of the United Nation's Food and Agriculture Organisation, for data and advice on land use issues.

Many thanks go to Mr. Jan Venema for the technical revision of this study report.
