The designations employed and the presentation of material in this information product do not imply the expression of any opinion whatsoever on the part of the Food and Agriculture Organization of the United Nations and the SWALIM Project concerning the legal status of any country, territory, city or area of its authorities, or concerning the delimitation of its frontiers or boundaries.

This document should be cited as follows:

# TABLE OF CONTENTS

List of Acronyms

Acknowledgment

1 INTRODUCTION

2 STUDY AREA

2.1 Location and delineation

2.2 Climate

2.3 Geology/Lithology

2.4 Landform and Soils

2.5 Land cover

2.6 Land Use

2.6.1 Rainfed Agriculture

2.6.2 Irrigated Agriculture

2.6.3 Transhumance Pastoralism

2.6.4 Wood Collection for Charcoal Burning

2.7 Population

3 MATERIALS

3.1 Land Resources data

3.1.1 Simplified Soil Grouping for Land Evaluation

3.1.2 Length of Growing Period (LGP) and rainfall variability

3.1.3 Temperature classes

3.1.4 Simplified Landform information for Land Evaluation

3.1.5 Simplified Landcover information for Land Evaluation

4 METHODS

4.1 Somalia Automated Land Evaluation System (SOMALES)

4.1.1 Objectives and principles of land evaluation

4.1.2 Resource Base Units

4.1.3 Land qualities and land characteristics

4.1.4 Land use types and their requirements

4.1.5 Matching land qualities with land use requirements

4.1.6 Land suitability classification

4.1.7 Verification of preliminary results

5 RESULTS

5.1 Land suitability for rainfed agriculture

5.2 Land suitability for irrigated agriculture

5.3 Land suitability for extensive grazing (pastoralism)

5.4 Land suitability for forestry

5.5 Comparison of suitability for the major types of land use

6 FURTHER DEVELOPMENT OF LAND EVALUATION PROCEDURE

ACKNOWLEDGMENTS

The authors wish to acknowledge the considerable support given by the Project Task Force.

Thanks should be addressed to Prof. Musse Shaie Alim for his contribution in the crop requirements and the validation of the results.

Finally we want to express our acknowledgment to all technical and administrative SWALIM staff, especially to Antony O. Ndubi for his valuable work in the edition of the maps.
