

Rainfall Forecast Somalia

Issued: 02/05/2016

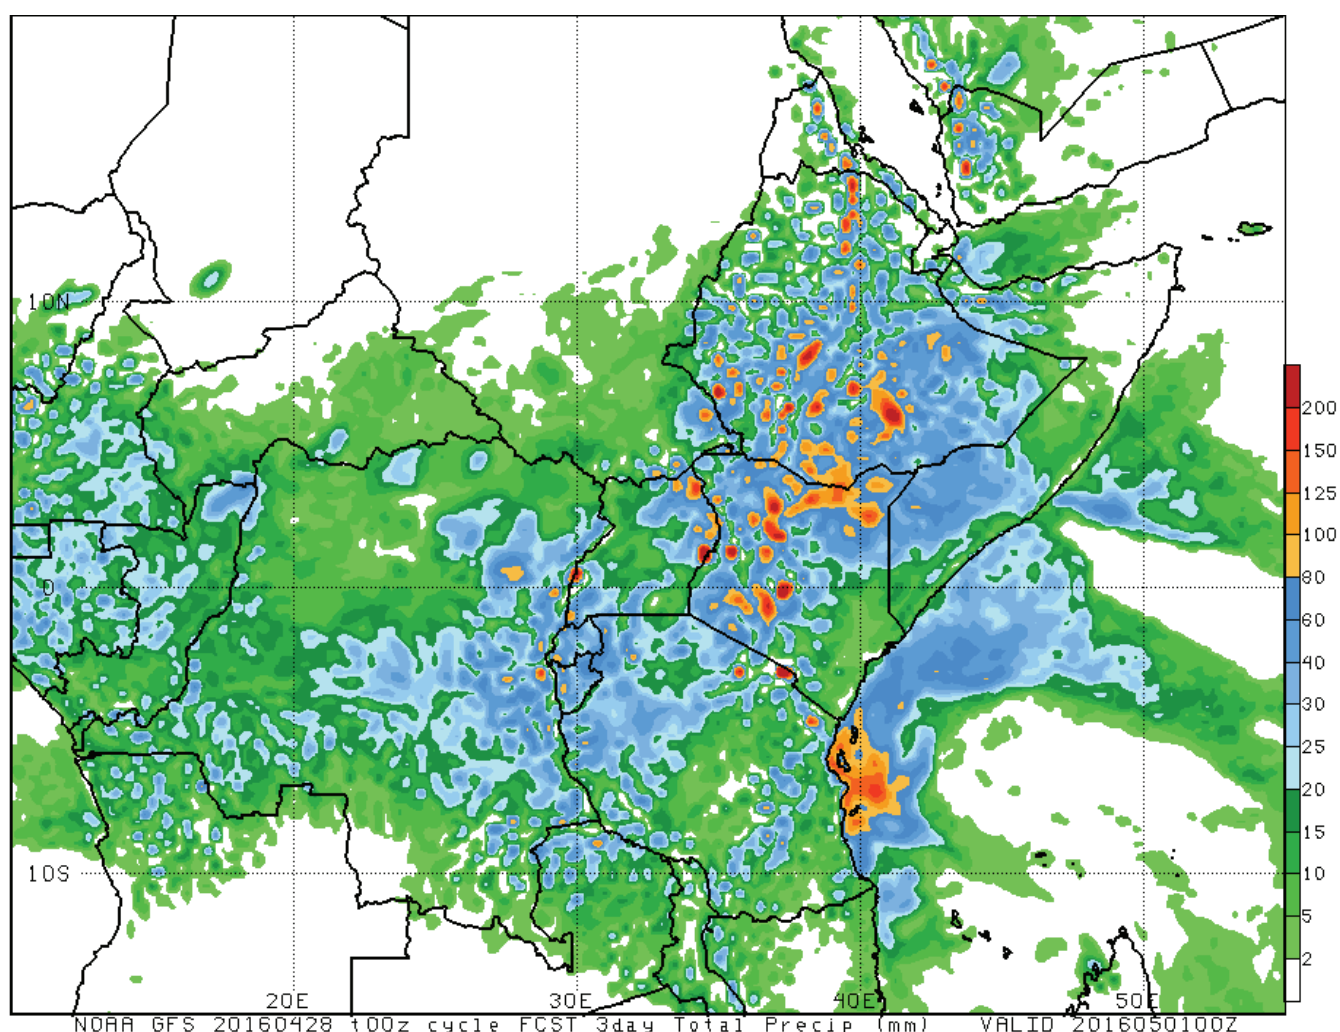

Food and Agriculture Organization
of the United Nations

SWALIM

Heavy rains within the Juba and Shabelle Basins have led to increased river levels along the two rivers. The forecast for the next three days calls for more rains in the basins. There is a high likelihood of flooding in Gedo, Middle and Lower Juba regions along the Juba River. There is also a high risk of flooding in Middle and Lower regions of the Shabelle River.

3-day accumulated rainfall forecast (02/05/2016 to 04/05/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 72 hours
