

Table 3: Juba Riverine Basin Population Displacement Estimates - Deyr seasonal rains 2006

Region	District	FSAU riverine population (by livelihood)	UNDP 2005 total district population ¹	EVIDENCE: FLOOD POPULATION DISPLACEMENT ESTIMATES			CURRENT BEST ESTIMATE ⁷
				FIELD ASSESSMENT ESTIMATES ⁶			Current estimate as of 11/11 4:00p.m
				Names of Villages affected	Estimated displaced population (total hh)	Estimated displaced population (total #)	
Gedo							
	Dolow ⁸	2,650	26,495				
	Garbahaarey	Not estimated	38,017				
				Fujuno, Haluul and Maykarebe	400	2,400	
				Funujo, Haluul and Maykarebe	400	2,400	
	Baardheere	21,234	106,172				
	Lugh						
	Burdubo	Not estimated	19,006				
	Ceel Waq	Not estimated	19,996				
				Bursar, Elwak			
				Elwaq	3	18	
					350	2,100	
				Buusar	20	120	

Table 3: Juba Riverine Basin Population Displacement Estimates - Deyr seasonal rains 2006

Region	District	FSAU riverine population (by livelihood)	UNDP 2005 total district population ¹	EVIDENCE: FLOOD POPULATION DISPLACEMENT ESTIMATES			CURRENT BEST ESTIMATE ⁷
				FIELD ASSESSMENT ESTIMATES ⁶			Current estimate as of 11/11 4:00p.m
				Names of Villages affected	Estimated displaced population (total hh)	Estimated displaced population (total #)	
Middle Juba							
	Jilib	45,366	113,415				
				Basay, Barakadurow, Makalango, Shangolamafula, Hargeisa, Marerey, Gududey, Koytoy, Tulo Farah and Sharantey	400	2,400	200
				Jafaley, Jerole			
				Limole, manayagabo, Jibisole, Farah, Jija, Fanole, Kurmyeedha near Marerei and Basay near Kamtirei			
				Hargaisa-Yarey	30	180	
				Hargeysayare			
				Hageysa, Mareerey, Gaduudey	140	840	
	Buale	29,745	59,489				
				Elmi			40
				Gubato, Yaqla, Gola, Dqiya Madow	6	36	
				Hurufle, Manane, Shangani, Bidi, Qararei, Bulo-sidow, Washan			
	Sakow/Salagle	19,792	65,973				
				Rersaba, Wabo (Aroosure), Hilfato (Dhakajo), Ishaa kudaal, Hiliari, Borowdinle and Garsore			

Table 3: Juba Riverine Basin Population Displacement Estimates - Deyr seasonal rains 2006

Region	District	FSAU riverine population (by livelihood)	UNDP 2005 total district population ¹	EVIDENCE: FLOOD POPULATION DISPLACEMENT ESTIMATES			CURRENT BEST ESTIMATE ⁷
				FIELD ASSESSMENT ESTIMATES ⁶			Current estimate as of 11/11 4:00p.m
				Names of Villages affected	Estimated displaced population (total hh)	Estimated displaced population (total #)	
Lower Juba							
	Jamame	45,202	129,149				
				Kamsuma, Kamtiirey, Beled-amiin, Buulo-mamow, Koban, Yiirey, Bandarjadiid			
				Koban and Shangala Mafula	182	1,092	
	Kismayo	16,667	166,667				
				Bullo Gaduud			
Combined reports							
					28,478	170,870	

Working assumptions:

- Displaced population defined as direct displacement through flood inundation
- Displaced population calculated by multiplying the number of hh's by hh size of 6
- If a range is provided to quantify displacement the upper figure is used

Table 2: Shabelle Riverine Basin Population Displacement Estimates - Deyr seasonal rains 2009

Region	District	FSAU riverine population (by livelihood)	UNDP 2005 total district population ¹	EVIDENCE: FLOOD POPULATION DISPLACEMENT ESTIMATES			CURRENT BEST ESTIMATE ⁷
