

Population Displacement Estimates - Deyr seasonal rains 2009

Region/District	UNDP 2005 Total Population ¹	Planning Figures Based on Actual 2006 Flood Displacement ⁴	Flood Displaced population since October 2009	PLANNING ESTIMATE		Current Status: 11/11 10:00 a.m 1. No floods reported 2. Confirmed floods, no displacement ^f 3. Confirmed flood with displacement, no numbers reported 4. Reported floods, confirmation pending for floods and displacement 5. Confirmed reports	Comments:
				Current Flood Displacement Estimates as of: 11/11 10:00 a.m ⁵	Number of Displaced population returned as of: 10/11 10:00 a.m		
	1,585,726	299,000	14,320	1,800	12,520		
Hiran	329,811	104,000	13,000	1,500	11,500		
Belet Weyne/Matabaan	172,049	80,000	13,000	1,500	11,500	5	Flooded farms, crops destroyed; latrines collapsed
Bulo Burti/Maxaas	111,038	9,000			0	3	
Jalalaqsi	46,724	15,000			0	2	Flooded crop fields
Middle Shabelle	405,264	159,000	120	0	120		
Jowhar/Mahadey	269,257	126,000				2	Flooded crop fields
Balcad/Warsheikh	136,007	33,000	120	0	120	5	Flooded crop fields
Lower Shabelle	850,651	36,000 ²	1,200	300	900		
Afgooye/Aw Dheegle	211,712	9,000				1	
Marka	192,939	0				2	Flooded crop fields crops destroyed
Qoryooley	134,205	0	300	300	0	5	Flooded crop fields
Kurtunwaarey	55,445	19,000			0	2	Flooded crop fields crops destroyed
Wanlaweyne	155,643	No Data	900	0	900	5	Flooded crop fields crops destroyed
Sabiale	43,055	5,000				2	Flooded crop fields crops destroyed
Brava	57,652	3,000				2	Flooded crop fields crops destroyed
	744,376	155,500	2,990	650	2,340		
Gedo	209,683	36,000	2,100	0	2,100		
Dolow	26,495	7,200				1	
Garbahaarey	38,017	4,800			0	4	Flooded crop fields crops destroyed
Bardheere	106,172	15,000				1	
Burdubo	19,003	9,000				1	
Ceel Waq	19,996	No Data	2,100	0	2,100	5	
Middle Juba	238,877	102,000	890	650	240		
Jilib	113,415	70,000	850	650	200	5	Flooded crop fields, crops destroyed
Buale	59,489	17,000	40	0	40	5	Flooded crop fields, crops destroyed
Sakow/Salagle	65,973	15,000				2	
Lower Juba	295,816	17,500 ³	0	0	0		
Jamame	129,149	17,500				2	Flooded crop fields crops destroyed
Kismayo	166,667	No Data				2	Flooded crop fields crops destroyed
	2,330,102	454,500	17,310	2,450	14,860		

Working assumptions:

- Displaced population defined as direct displacement through flood inundation
- Displaced population calculated by multiplying the number of hh's by hh size of 6
- If a range is provided to quantify displacement the upper figure is used

Footnotes:

1. Population estimates by region/district, UNDP Somalia, August 1, 2005
2. Comprehensive reports indicated minimum displacement in Lower Shabelle in 2006
3. Kismayo district reported floods but no population displaced was given in 2006
4. 2006 estimates derived from field reports, flood projection model and UNOSAT imagery; see ochaonline.un.org/OchaLinkClick.aspx?link=ocha&docid=1123747
5. Table updated daily with cut-off point of new information at 4:00pm. Best estimates are based on triangulation of all available field information
6. Floods with no displacement might be due to flooding on fallow land, crop lands, encircled houses, low flood water levels, etc. Contact floodinfo@fsnau.org for details
