

# Rainfall Forecast

## Somalia

**Issued: 13/04/2016**

Food and Agriculture Organization  
of the United Nations

**SWALIM**

Wet conditions with moderate to heavy rains are expected to persist in the next three days in most parts of Somaliland (Awdal, W/Galbeed, northern Togdheer, and northern parts of Sanaag). The northern parts Bari region in Puntland as well as the Ethiopian highlands are expected to receive moderate to heavy rains too. Other parts of the northern Somalia (Nuugal and southern Bari) and parts of southern and central regions inside Somalia will experience little or no rains during the forecast period.

### 3-day accumulated rainfall forecast (13/04/2016 to 15/04/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 24 hours
