

# Rainfall Forecast Somalia

Issued: 26/04/2016

The last 24 hours have seen an increase of rainfall amounts in many parts of the country including Puntland and other central regions that have not had any significant rains since the beginning of the season.

The three days forecast is calling for more rains across the country. Heavy rains are also expected in the Ethiopian highlands during the same period.

## 3-day accumulated rainfall forecast (26/04/2016 to 28/04/2016)

Each cell on the map represents the forecasted accumulated rainfall over the next 72 hours
